For Ultimate Performance

The spirit of SUZUKI: To continue creating “Value” that satisfies your passion... Providing an inspiring experience is just one element of this “Value”.

In the 1980's, Suzuki started the development of lubricants in pursuit of ultimate performance. The lubricant is named “ECSTAR” as it is our guiding “Star” towards an “Ecstatic” performance. As the expectation towards our products evolves, the same attention to performance is required for durability and environmental protection. With the high technology cultivated through its long history and dedicated engineering, Suzuki has precisely re-formulated “ECSTAR” to satisfy and exceed these requirements.

In 2015, ECSTAR started as the global brand name of Suzuki Genuine Oil & Chemical.

By enhancing and drawing out the best performance, “ECSTAR” will give you a Suzuki experience that others could not.
